

## Construction and Demolition Rules

Nicholas County Solid Waste Authority is now happy to offer a Construction and Demolition Rate. The rate is \$37.50 a ton. To get the C&D rate all materials must meet WV 33 CSR1 2.38 "Construction/Demolition Waste" Definition. The definition is also on the NCSWA website [www.ncwvswa.org](http://www.ncwvswa.org) The following procedures must be adhered to when bring Construction and Demolition to the Nicholas County Landfill.

1. You must declare to the scale house attendant that you have Construction and Demolition Debris and ask for the C&D Rate (*if you fail to declare to the scale house you have C&D you will be denied the C&D rate as your load **must be** inspected to qualify*)
2. You will then be directed to the proper area for disposal
3. NCSWA will inspect your load to assure it meets WV 33 CSR1 2.38 "Construction/Demolition Waste" Definition.
4. If your load meets the proper requirements you will receive the \$37.50 a ton C&D Rate
5. If your load **DOES NOT** meets the proper requirements you will be charged \$69.25 a ton tipping fee.
6. There cannot be any debris that does not meet with the "Construction/Demolition Waste " Definition in your load or if there is any garbage at all in the load you will be redirected to another area for disposal and **WILL** be charged \$69.25 a ton tipping fee.
